

Weekenders

Each Friday the residents who are able to partake are offered a small activity sheet to complete during the weekend. This has really helped with those who are here for short term and rehab.

I copy word searches, crossword puzzles, fill in the blank, trivia and anything that may tickle their mind while they may be resting in room during the weekend or leisure time. They do seek me out for answers or areas they maybe having a hard time with - otherwise they just complete for fun.
